

CITY OF SPRINGFIELD
INTER-OFFICE MEMORANDUM

ATTENTION OF FILE

DATE 8-19-87

DEPARTMENT _____

On Monday, August 17, 1987, at approximately 10:00 a.m., I received a call from Joyce Sifers on the radio about a transmission fluid spill at 321 E. Chestnut Expressway. She had received a call from the Fire Dept. who said it was causing a traffic problem. Dave Speak estimated that 5 to 6 gallons of the substance had been spilled. The oil was lying on the south curb of Chestnut Expressway and some had entered the storm sewer. There was no water in the storm sewer and the oil was lying on the bottom of it. I called the Street Dept. and asked them to call the State Highway Dept. I went back to the office and filled up a bucket of sand to keep any more from entering the storm sewer. When I arrived back at the spill, the State was already there *and put sand on the spilled material.*
